Three Drowned In Stikine

The Winifred came down the river last Friday and brought the report of the drowning of three natives near Buck's Bar on August 12th. It seems the party composed of Mat Richie, about 35, Kitty Jackson, 16 years and brother Chas. Jackson, about 12 years old were crossing the river in a canoe which was caught in the current, turned turtle, and before any of the party could get hold of it was carried downstream about 400 yards where it was picked up by the Winifred. The river is being dragged for the bodies which up to the last reports have not been recovered.

Takes Prisoners To Juneau

Marshal Grant and Deputy Marshal Dalgity left on the Spokane for Juneau where they go to take three prisoners to appear before the term of court at that place. The prisoners and charges against them are: Ed Erickson, booze peddling, Mike Keane, grand larceny and Nicholas Lopaz, booze peddling.

"What Happened to Mary" is coming to the Rink next week.

No Hunting On Zarembo

The first of the week there was a rumor of Zarembo Island's being open to deer hunting, but as we were not sure of it we communicated with the Governor in Juneau to which he answered by sending us a copy of the game laws dated July 21, 1914. The open season for deer in Southeastern Alaska is from Aug. 15 to Nov. 1, both inclusive; the limit for the season is six deer; the sale of deer carcasses is prohibited until Aug. 1, 1915; the killing of deer on Zarembo Island is prohibited until Aug. 1, 1916.

Seven Passengers For Telegraph

The River boat Karen left this morning for Telegraph with a good consignment of freight and seven passengers. The passengers are Geo. Johnson, Frank Johnson, Bob Johnson, Geo. Sherman, L. Held, Chas. Borch and wife. The first four are hunters, Mr. Held is a mining man, Mr. Borch and family will spend the next few months at Telegraph.

Teachers For Coming Term

Dr. Dawes of the school board gave out the information that the following teachers have been appointed for the ensuing school term: Miss Drowatsky, Principal; Miss Pritchett, Intermediate grades; Miss Beiler, Primary; and Miss Cora Smith, High School. School will start Tuesday Sept. 1.

Special Feature At The Rink

The Rink has another special feature on the program Friday night. The picture is taken from the famous drama "Leah Kleschna" and is acted by the Famous Players Film Company. "Leah Kleschna" is a polite melodrama with a sharply defined psychological undercurrent. "Leah Kleschna" will make a profound impression on the screen. It ascends far above the plane of the drama that merely interests and thrills. It proves that the soul of good in one who has been almost involuntarily led into a career of crime can be reached and the better nature awakened. It is a picture of the unusual and one that everyone should see.

The Wrangell Photoshow has secured the services of Miss Lacy of Sacramento, Cal. to sing at their show next Saturday night. Miss Lacy comes recommended as a singer of special merit, so you should attend the show next Saturday evening.

Power Company Changing Line

The Wrangell Electric Light & Power Co. are getting ready for the installing of their new power plant. They have several men on the pole line stringing new wires for the new current, and also a bunch of carpenters building a large engine room and office addition to the old building. When the plant is complete Wrangell will have one of the best power plants of any city its size in Alaska, and the intention is now, if enough business is offered, to run the plant during the day supplying electricity for cooking and heating purposes.

Telegraphers Pass Through

J. Hyland and W. M. Ogilvie were passengers down on the Karen last Thursday. Mr. Hyland is one of the prominent merchants of Telegraph and Mr. Ogilvie is an extensive mining operator of the Dease Lake district.

The City Store shipped quite a consignment of wire netting to A. S. Gillespie at Telegraph on the Karen this morning. The netting will be used in making pens on the fox farm at that place.

Tonic Has Hard Trip

Rev. Corser chartered the Tonic yesterday morning, gathered up his Boy Scouts and a number of tourists visiting here, and made the trip up the Stikine to LaConte Glacier. The party of twenty-one made the trip up safely but on the return the Tonic ran into a fish net off Shakes Point, the net tangled up in the wheel so the boat drifted onto a sand bar and stuck. Frank Spaulding and Carl Carlson rowed to town in the skiff and secured Fred Bronson's and Spaulding's gas boats which went out and brought in the stranded party. Capt. Svindseth stayed with the Tonic, cleared her wheel at low tide and brought her in safe and sound this morning.

In a resume of the war and the effects it may have on the United States we cannot but see that it will put us at the very forefront of Nations as to exports, and it might be termed a Golden Year for the American Farmer. With its bumper crop the United States can export as much as 400,000,000 bushels of wheat, and probably may spare at least 200,000,000 bushels of corn, without creating serious inroads upon our domestic supply. Canada and India alone will be our principal competitors during the next four months, as not until then will Argentina's new crop be available. The cotton mills of the south may profitable run day and night to convert into cloth the raw staples which are excluded from the German market. The United States will be called upon to supply great quantities of other manufactures, not only to the nations now at war, but also to other countries heretofore dependent on England, Germany, or France for such manufactures.

Thus if the ensuing twelve months are enterprisingly utilized by farmers, manufacturers, bankers and the general public, the United States may within a year leap into as commanding a position in the world's commerce as she might otherwise attain some years hence.

Whether the war is long or short, its ultimate effect will be disastrous upon credits, prices, and industries in the United Kingdom and Europe. Inevitably the rest of the world, including the United States, will have to share in the depression that must ultimately follow the "cosmetic catastrophe" now in progress.

The Dream and the Rink set The Pace.

In the past week we have been asked several questions concerning Liege, so we print a short description.—Liege, (Le-azh), one of the principle cities of Belgium, Capital of the Province of Liege situated at the confluence of the Meusa and Ourthe rivers, a large factory and foundry center, principle among them a large cannon and gun foundry. Population in 1906. 172,039.
